

The Vennell-a scoop

Out With The New and In With The Old

Actually that title is correct. The picture you see here is an "old" airplane being dedicated at our headquarters the day it left to be ferried over to Lesotho.

For the last 4 years we have been operating 2 "new" 206's and 2 old ones but we are now doing away with the new ones all together and replacing them with the old ones. Now before you jump to the conclusion that we have lost our marbles you must know the reasons

why. The new airplanes are much heavier which limits the amount of cargo and passengers that we can

take. The old ones are lighter planes. We are excited to have it arrive in Lesotho by the end of

June. Please pray that all goes well with the flight from California to Lesotho. There is a lot of ground to cover, and water too.

Don't be too worried as this airplane has gotten a new engine, propeller, paint job, radios as well as many other great upgrades. We anticipate putting it right into service for our Lord!!

Furlough, man that's a lot to think about...

Thanks to some wonderful donors, we had a dedication of our own for this new water tank. City water is not always a reliable utility.

We are busy trying to plan our departure from Lesotho and our arrival in the US. It still looks like we will be home by the beginning of September. We are hoping to find a vehicle as well as a travel trailer big enough and affordable

enough for the Vennell girls to live in while they are traveling. We have a few leads but we do ask for your prayers as we consider the costs as well as the needed comforts while on the road to see all of our wonderful supporters

like YOU! Please let us know if you or your church would like us to share about what God is doing in Lesotho. We are excited to share and we can't wait to see you!

Tim and Tonya

One last thing before I sign off for the night and probably for the summer. As you will soon see, MAF's headquarters is moving. I have included on the back of this newsletter a letter written by MAF itself informing you of our new address and some of the latest developments. Please keep praying that this move would go smoothly.

Mailing address until end of August:

Our New Address...

We are fast approaching July 2006, when MAF will be moving our worldwide headquarters from Redlands, California, to Nampa, Idaho. Please make note of our new address. As of June, please discontinue using our Redlands, CA address when sending in your gifts to support the ministry of your MAF family or the ministry of MAF. If you have any questions, please call us at 1-800-FLYS MAF (outside CA), or 909-794-1151.

California has been a wonderful home for MAF for the first 60 years of our ministry. In the past two years, the Lord has made it clear that being good stewards of the resources He has entrusted to us means we must move to a more economical location. The skyrocketing costs of living and doing business in California, have put an unreasonable financial burden on this ministry. We are grateful to God for leading us to Nampa, Idaho, a

MAF's new headquarters, hangar and office complex, nearing completion at the Nampa Airport, Nampa, Idaho.

**Dedication and
Open House...**

of our new headquarters will be Saturday,

September 23, 2006. We hope you can join us. More details will follow as we get closer to the day. We are looking forward to sharing with you all that God is doing in and through this relocation.

Dear MAF Partner,

As we move our headquarters from California to Idaho, we constantly remind ourselves that our focus must be on the urgent job that the Lord has given us to do for Him. Significantly reduced organizational expenses will enable us to multiply our effectiveness in seeing lives transformed for Jesus Christ all around the world.

The Lord continues to open doors for us in unexpected parts of the world, and we

want to always be ready to respond. By using the tools of aviation and electronic

communications, locations that were once isolated can now re-
